CYLINDER TECHNICAL DATA

Type	Cylinder Type B
Capacity In Litre	10 LTR
Body Material	Steel
Application Standard	ISO9809-3:2010
Filling Contents	Compressed gases or liquefied gases
Environmental Temperature	-20°C to 65°C
Heat Treatment	Normalized
Hydraulic Test Pressure	250bar
Max. Working Pressure	150bar
Outer Dia	139.8 mm
Length [approx]	850 mm
Neck Ring	Yes
Operating Valve	Yes

FEATURES

Explosion Proof PESO Certified

Dimensions Drawing (All Dimensions are in mm)
